

Price of Small Distribution Box Installation Platform

Article Overview

The cost of a small distribution box installation platform typically ranges from \$50 to \$300 for the unit, with installation adding \$10-\$50 per unit depending on complexity and certification.

Distribution Box Costs

Small distribution boxes, such as surface-mounted or embedded units for residential or light commercial use, generally cost between \$50 and \$300 depending on material, number of modules, and features like IP rating, halogen-free construction, or suitability for wet rooms . Plastic ABS or polycarbonate enclosures are on the lower end, while metal or certified units (IEC 61439) can cost 20-30% more due to higher reliability and safety standards .

Installation Costs

Installation fees vary based on whether the box is surface-mounted or embedded. Embedded units typically cost \$10-\$30 more per unit than pre-assembled surface-mounted boxes due to additional labor and mounting requirements . Hourly rates for electricians, environmental conditions, and complexity of wiring can further influence the total installation cost.

Factors Affecting Price

- Material and Build Quality: ABS plastic is cheaper, while stainless steel or powder-...
