

Price of Wire Trays and Cable Trays

Article Overview

Wire cable trays typically cost between \$2 and \$25 per meter, depending on material, type, and finish.

Price Range and Factors

The average price per meter for cable trays varies widely based on material, type, size, and surface finish. Wire mesh or basket trays, which are lightweight and ideal for data cables, are among the most affordable options, often at the lower end of the \$2-\$25 range . Ladder-type trays, designed to support heavier power cables, are more expensive due to their robust construction . Material impacts cost significantly:

- Galvanized steel: Common, durable, and moderately priced.
- Stainless steel (304 or 316): Corrosion-resistant, higher cost.
- Aluminum: Lightweight and rust-proof, pricier than steel.
- PVC or plastic trays: Budget-friendly but unsuitable for heavy loads . Coatings and finishes also affect pricing:
- Hot-dip galvanized (HDG): Long-lasting outdoors, higher upfront cost.
- Powder coating: Protects against wear, available in multiple colors.
- Pre-galvanized: Cheaper but less durable in corrosive environments .

Installation and Project Considerations

The overall project cost includes more than just the tray price. Labor, equipment depreciation, energy consumption for cutting/welding, and shipping can add significantly to the total . Wire mesh trays are easier to handle and install, which ca...
