

Price of bending cable trays in flat areas

Article Overview

Flat bend cable trays typically start around \$0.8 per unit for basic wire mesh types, with prices varying based on material, size, and duty rating.

Overview of Flat Bend Cable Trays

Flat bends are used to route cables horizontally in flat areas, allowing smooth directional changes without compromising cable support. Common angles include 45° and 90°, and adjustable bends can cover 30°, 45°, 60°, 75°, and 90° configurations for medium and heavy-duty trays. Widths range from 50mm to 900mm, depending on the system and load requirements.

Material and Finish Options

- Mild Steel Pre-Galvanized (PG): Standard option for light to heavy-duty trays.
- Mild Steel Hot-Dip Galvanized (HDG): Provides enhanced corrosion resistance, suitable for outdoor or harsh environments.
- Stainless Steel Grade 1.4404 (316L): High corrosion resistance, often used in chemical or marine environments. Closed or ventilated covers are available for 45° and 90° bends, which can affect the price.

Pricing

- Wire Mesh Bend Trays: Starting at approximately \$0.8 per unit for bulk orders (minimum 10 units) on platforms like Alibaba.
- Perforated or Solid Flat Bends: Prices vary depending on material thickness (0.6-2...
