

Price of fiber optic cable and fiber optic cable interconnection

Article Overview

Fiber optic cable prices range from \$0.09 to \$6 per foot for materials, with installation costs varying from \$1,500 to \$20,000 depending on project size and complexity.

Fiber Optic Cable Pricing

The cost of fiber optic cables depends on cable type, fiber count, and installation method. Retail prices for materials typically range from \$1 to \$6 per linear foot, while wholesale bulk purchases can be as low as \$0.09 to \$1.52 per foot. Simple single-core FTTH drop cables cost around \$0.13 per foot, whereas high-count backbone cables (e.g., 288 strands) can reach \$6 per foot or more. Pre-terminated assemblies and patch cables are more expensive due to factory termination and connector types. Installation costs vary widely based on aerial vs underground deployment, trenching, splicing, and labor rates. For residential projects, installation typically ranges from \$1,500 to \$7,000, averaging around \$4,500, with per-foot costs between \$1 and \$12 depending on complexity. Larger commercial or outdoor projects can cost \$15,000 to \$20,000 for armored cables, multiple splices, and professional testing.

Factors Affecting Cost

- Cable type: Single-mode is cheaper per foot than multimode but requires more expensive equipment.
- Installation method: Underground or direct burial is more expensive than aerial or...
