

Price of fiber optic cable splicing on distribution frame

Overview

The exact price hinges on splice complexity, fiber type (single-mode vs multimode), jacket condition, and whether the repair occurs on a backbone, distribution, or customer-facing link. Per-splice pricing often ranges from \$200 to \$600, depending on the equipment and skill. Fiber optic splicing costs vary widely depending on project size, location, fiber type, and site conditions. There are two primary methods: fusion splicing and mechanical splicing. This guide presents ranges in USD and practical price estimates to help. Idk if that's usual but the ranges are : 1-24 splices 25-72 73-144 144+ Guys that are paid similar to this scale, how much should I be getting paid per range?

Thanks I usually bill T&M, but it works out to about \$175-250 for setup/teardown per site and \$4-7 per fiber for prep in a new tray in an. As it turns out, fusion splicing makes a lot of sense for trunk fibers and locations where there are anywhere from 48 to 192 fibers to splice.
