

Price of horizontal and vertical cable tray tees

Article Overview

Horizontal and vertical cable tray tees typically range from \$20 to \$150 per piece, depending on size, material, and duty rating.

General Pricing Overview

- **Horizontal Cable Tray Tees:** For light to medium duty, pre-galvanised steel tees usually cost \$20-\$60 per unit. Heavy-duty or stainless steel versions can range from \$80-\$150 per unit .
- **Vertical Cable Tray Tees (Risers):** These are generally more expensive due to structural requirements. Prices typically range from \$50-\$150, with stainless steel or hot-dip galvanised finishes at the higher end .

Factors Affecting Price

- **Material:** Mild steel (pre-galvanised) is the most economical, while stainless steel (grade 316L) is significantly more expensive .
- **Finish:** Pre-galvanised (PG) is cheaper than hot-dip galvanised (HDG), which provides better corrosion resistance .
- **Size and Duty Rating:** Wider trays (up to 900mm) and heavy-duty designs cost more due to increased material and load capacity .
- **Type:** Equal tees (all arms same width) are usually less expensive than unequal tees or crossovers .
