

Price of installing aviation sockets in distribution boxes

Article Overview

The cost of installing aviation sockets in distribution boxes typically ranges from \$50 to \$300 per socket, depending on socket type, distribution box specifications, and installation complexity.

Aviation Socket Costs

Aviation sockets vary widely in price based on type, material, and performance features. Common options include metal GX series connectors (GX12, GX16, GX20) and waterproof variants, with prices generally ranging from \$10 to \$100 per unit for standard industrial or commercial-grade sockets. High-performance or military-grade sockets with shock, fire, and high-temperature resistance can cost more, sometimes exceeding \$150 per unit. Bulk purchases or OEM customization may reduce per-unit costs.

Distribution Box Considerations

The type of distribution box significantly affects installation cost. Factors include:

- **Material:** Steel, stainless steel, aluminum, or thermoplastics. Stainless steel or aluminum boxes are more expensive but offer durability and corrosion resistance.
- **IP Rating:** Higher ingress protection (IP65–IP69K) increases cost due to better seals and precision machining.
- **Design Features:** Multiple compartments, DIN rails, and pre-cut panels for connect...
