

Russian cable tray factory processing

Article Overview

Leading Russian cable tray manufacturers like Moskabelmet, EKA Group, and Ekoplast produce a wide range of metal and polymer trays using automated, high-quality processes compliant with national and international standards.

Key Manufacturers and Their Capabilities

Moskabelmet (MKM) is one of Russia's oldest and largest cable product manufacturers, producing over 50,000 items annually, including polymer and wire mesh trays for residential and commercial projects. Their production combines five factories with laboratories and environmental control centers, emphasizing innovation, patented solutions, and compliance with Russian electrical safety standards. They also export to Europe and Asia, serving strategic partners like the Ministry of Defense and Rosatom . EKA Group specializes in cable support systems and operates a modern, high-capacity automated production line. They use high-quality cold-rolled and galvanized steel sourced from leading Russian manufacturers. Their production process includes elements of proprietary know-how, strict quality control, and certification by accredited authorities. EKA focuses on industrial, commercial, and residential projects, including petroleum, chemical, and defense sectors . Ekoplast produces a variety of cable trays, channels, and accessories, emphasizing polymer-based solutions. Their plant uses automated processes and adheres to ISO 9001:2008 standards, with CE certification for European compliance. Ekoplast focuses on affordable, high-quality materials for both hidden and outdoor electrical wiring, serving Russia and CIS countries . Sevcable Structures and UralTray also contribute to the market, with Sevcable specializing in ladder and perforated trays for industrial plants, and UralTray offering fire-resistant trays for energy and d...
