

Sales Channels for Fiberglass Cable Trays

Article Overview

Fiberglass cable trays are sold through a combination of direct manufacturer sales, distributor networks, industrial suppliers, and specialized B2B channels targeting infrastructure, energy, and industrial sectors.

Direct Manufacturer Sales

Leading manufacturers such as ALOIS Composites, Oglaend System Group, Enduro Composites, Schaedler Yesco Distribution, Legrand, and Panduit often sell directly to large industrial clients, utilities, and infrastructure projects . Direct sales allow for customized solutions, bulk orders, and technical support for complex installations in chemical plants, offshore platforms, and renewable energy projects .

Distributor and Wholesale Networks

Fiberglass cable trays are widely distributed through industrial distributors and wholesalers who supply electrical contractors, construction companies, and data center operators. Companies like Wiremold and Chatsworth Products leverage partnerships with distributors to reach regional markets efficiently, often bundling trays with complementary cable management systems . Distributors also provide inventory management, local delivery, and technical guidance, which is critical for large-scale projects.

Online and B2B Marketplaces

The market is increasingly adopting online B2B platforms for procurement, especial...
