

Secondary Distribution Box Protection Manufacturers

Article Overview

Leading manufacturers of secondary distribution box protection include ABB, Lucy Electric, VIOX Electric, ROSE Systemtechnik, and LAIWO, offering solutions for medium- and low-voltage power distribution with advanced safety and monitoring features.

Key Manufacturers and Offerings

ABB provides the Relion family of protection and control relays for secondary distribution, covering protection, control, measurement, and supervision of power systems for both IEC and ANSI applications. Their solutions include secondary vacuum circuit breakers, primary protection relays, and modular air- or gas-insulated switchgear up to 24 kV. ABB products are suitable for OEMs, panel builders, and EPC partners, with user-friendly configuration software (PCM600) and ready-made application packages for smooth integration. Lucy Electric specializes in medium- and high-voltage switchgear, automation, and grid monitoring technologies. Their secondary distribution solutions include SF₆-free ring main units (RMUs), intelligent distribution network automation systems, and EV infrastructure solutions. Lucy Electric products are designed for utilities, industrial, and commercial applications, emphasizing reliability, safety, and sustainability across global markets. VIOX Electric manufactures premium distribution boxes and electrical panels for residential, commercial, and industrial applications. Their products include bus bars, circuit breakers, fuses, residual current devices (RCDs), and surge protection devices. VIOX offers custom solutions with ABS or stainless steel enclosures, high IP ratings,...
