

Somali Indoor Optical Cable Manufacturer

Article Overview

Somalia currently has several leading fiber optic network companies, but domestic manufacturing of indoor optical cables is limited, with most companies focusing on network deployment and infrastructure services.

Key Companies in Somalia

1. Somcable Founded in 2009, Somcable is a major fiber optic network operator in Somaliland and Puntland, linking Djibouti, Somaliland, and Puntland. The company provides wholesale fiber optic services, including metropolitan networks with redundant paths and high-capacity DWDM systems capable of transmitting over 400 Gb/s. Somcable specializes in network deployment, maintenance, and advanced data solutions, but it primarily operates as a service provider rather than a manufacturer of optical cables . 2. SOON (Somali Optical Network) SOON is a licensed Somali company offering fiber-optic network installation, maintenance, internet and data services, VoIP, network security, and cloud hosting. While SOON has invested in state-of-the-art infrastructure and provides comprehensive optical network services across Somalia, there is no public evidence that it manufactures indoor optical cables domestically . 3. Dalkom Somalia Dalkom Somalia operates a large-scale optical fiber network covering 30 African countries and extending to Europe and globally. The company has strategic investments in submarine cables like EASSy, EIG, and WACS, enabling resilient and cost-effective connectivity. Dalkom focuses on network operations and international connectivity rather than cable manufacturing . 4. National Fiber Optic Company (NFOC) NFOC manages Somaliland's fiber optic backbone and metro networks, including operations, maintenance, and expansion. It acquired Somcable's terrestrial infrastructure and provides essential heavy equipm...
