

Vanuatu power distribution box

Article Overview

Vanuatu offers a range of power distribution boxes for residential, industrial, and telecom applications, supplied by local and international manufacturers.

Types of Distribution Boxes

- **Low-Voltage Distribution Boxes** These are commonly used in domestic and residential settings for lighting, appliances, and small-scale electrical systems. They include standard breaker panels and modular enclosures suitable for homes and small businesses .
- **Medium-Voltage Switchgear** The GZS1 type metal-clad draw-out AC enclosed switchgear is an indoor, complete power distribution device suitable for industrial, mining, and high-rise buildings. It is used for receiving and distributing electrical energy in substations, power plants, and large commercial facilities .
- **Telecom and Outdoor Cabinets** For telecom infrastructure, outdoor cabinets and secondary distribution boxes are used to house UPS systems, lithium storage, and remote power management equipment. These are designed for durability in harsh environments and remote locations .
- **High-Current and Specialized Cabinets** Industrial installations often require high-current tertiary and low-current cabinets, including UPS and 48V DC cabinets. These are used in commercial buildings, penthouses, and critical infrastructure to ensure reliable power distribution .

Local Suppliers and Manufacturers

- **Vate Electrics:** Offers over 30 years of experience in electrical installations, including domestic, residential, and industrial distribution systems. They provide ins...
